Simplicity+
STRAIGHT STAIRLIFT

Lifting Expectations

The benefits of a Minivator Simplicity+ Stairlift

If you are thinking about installing a stairlift the Minivator Simplicity+ offers you a safe and reliable solution.

A world leader in stairlift manufacture, Minivator has helped thousands of people overcome the problems posed by going up and down their stairs at home.

The Simplicity+ straight stairlift offers you all the basic functions that you would expect plus the option to upgrade to a powered seat swivel and/or folding footplate. If you have an obstruction at the base of the stairs, you can choose from a manually operated hinged track or the unique SlideTrack that is only available from Minivator.

With a choice of six upholstery colours the Simplicity+ will compliment most colour schemes. The track is fitted to the stairs, not the wall, so it is unlikely you will need to redecorate following the installation of your Minivator Simplicity+ stairlift.

Like all Minivator stairlifts the Simplicity+ has a battery backup which means it will continue to work in the event of a power cut so you do not need to worry about being stranded upstairs or down.

The compact unit is designed to fold up leaving the staircase free for other users, the Simplicity+ also comes with two remote controls which means, once folded, you can move it along the track freeing up space in your hallway.

Safety As Standard

Your Simplicity+ stairlift will come with a range of safety sensors that are designed to stop your stairlift if it meets any obstruction as you travel up the stairs.

Your Simplicity+ stairlift has an easy release retractable seat belt for added security and peace of mind.

If you prefer you can have an easy fasten Velcro seat belt.

Easy to Use

The operating toggle is easy to use, simply hold it towards the direction you wish to travel, up or down, and your Simplicity+ will move smoothly and gently on its way.

The control is conveniently located at the end of the arm leaving both arms clear to provide unhindered support when getting on or off the seat.
